

Experiences with the Europass Digital Credentials Infrastructure for issuing qualifications and the Diploma Supplement

Prof. Mile Dželalića, PhD

University of Split
European University of the Seas, SEA-EU

EDC experiences at the UNIST / SEA-EU

- Q1 2019, Expression of Interests to participate in the piloting of the EDC (among the first institutions); Preparation of the SEA-EU project (6 Universities from EU)
- Q2-Q4 2019, Participating in piloting of the EDC and Peer Learning; sample of credentials/diplomas for testing; starting the SEA-EU European University
- Q1-Q2 2020, Conceptual testing and bilateral training on the EDC Framework
- Q2 2020, Installation of the IT tool (NexU) and testing the e-Seal
- Q3-Q4 2020, Conceptual understanding and preparation of the SEA-EU alliance
- Q1 2021, **First issue of EDC** (for non-formal events) at the UNIST
- Q1-Q3 2021, Preparing training and guidelines – widening practice to the **SEA-EU**
- Q2-Q3 2021, **Issuing EDC** (for 2 non-formal events), over 100 participants
- Q4 2021, ***First issue of BSc and MSc qualifications, diplomas and DS (over 60 graduates)***

Interests at the UNIST and the SEA-EU

- Wide spectrum of attractive potentials of the EDC
- Motivated for the development of the EDC practical guidelines for all types of users, and analyses of interests and issues of different users
- Implementation of the EDC within the SEA-EU universities – up to now, 6 universities within the SEA-EU are at different stages of preparation/implementation:
 - Uni-Malta and Uni-Gdansk are ready for the first issue of certificates; Uni-Cadiz and Uni-Brest are preparing themselves; Uni-Kiel analyses how to use its own infrastructure
- Widening practices within the SEA-EU universities, employers and other stakeholders
- Widening practices to other HEIs, outside the SEA-EU alliance, and various stakeholders

Challenges that the UNIST and the SEA-EU has faced

- Understanding the potentials of the EDC Framework and the concept behind, etc.
- Understanding the basic IT elements; understanding preconditions (operating systems, etc.)
- Providing the qualified e-Seal from the appropriate institution; types of e-Seals; etc.
- Understanding data model, expressed as XLS / XML
- Integration to the existing databases at institutions and the higher education systems – in order to use already prepared data on qualifications (learning outcomes, assessment, etc.)
- Integration to other transparency tools (automatic recognition, quality assurance, mobility, etc.)
- Legislation issues at national levels
- Motivation of administration staff
- Etc.

... and the overcome

- Functional Guidelines and explanation of various elements on the EDC – also, supported by the Europass website on the EDC
- Training, meetings and workshops
- Support by EU experts
- Motivated individuals at the UNIST and the SEA-EU, including rectors and deans/leaders of study programmes
- Support by the governance of the UNIST and the SEA-EU, project based activities
- Right time of the idea (digitalisation agenda)
- Producing (simple) examples
- Step-by-step processes

Potentials, as seen by project leaders/participants the UNIST / SEA-EU

- EDC valuable for anyone – universities as HEI, professors, students, NGOs, employers, etc.
- EDCs are free; EDC Framework is enough simple to use
- Great potential values if linking to Quality Assurance, automatic recognition of foreign qualifications, mobilities of graduates/employers, etc.
- Image of the University and the Alliance
- Potentials for further development and the use for other types of credentials at HEIs and the HE research systems (published research papers, citations, patents, etc.)

XLSM-files for non-formal EDCs, May and June 2021

	A	B	AE	BH	BI	BJ	BL	BN	BQ	BR	BS	CV	CW	DZ
1	Credentials <i>This is the main sheet for issuing credentials. Enter data about each credential as being issued to each student here.</i>								CREDENTIAL WILDCARDS <i>Customise your credential to match your traditional certificates' look and feel.</i>					
8	Label	Title	Description	Valid from	Expiry date	Type	Owner	Issuer	Background	HTML (click here for detailed instructions)	Label 1	Labels key	Label 2	Labels key
	Definition	The full official title of the issued credential (maximum 50 characters).	Summary of the claim or group of claims being made about a person (maximum 140 words). Typically should start with a verb, for example "has achieved", "is entitled to", "has attended", "knows".	This date represents the earliest date when the information associated with the credential/owner became valid. A verifiable credential MUST have a valid from property. This is not the date and time of generation of the credential. Please provide a valid date of issuance.	The value of the expiry date property represents the date and time the credential ceases to be valid (if applicable). If the credential has an expiration date, please provide that specific date in a valid date format.		The person about which claims are made and who owns the credential. By adding new credential rows, this sheet will automatically add entries listed on the 'Person' sheet.	The organisation that issued the credential and sealed it with their digital e-seal. The organisation that issued the credential and sealed it with their digital e-seal. Please select the organisation that issued the credential. For an organisation to appear in this list its details need to be entered under the 'Organisations' sheet.	Please provide a public URL to a background image that has a portrait orientation and DIN A4 ratio.	The EDO Viewer displays an HTML representation of the credential. This HTML portion will be included in the EDO Viewer in a div that ensures DIN A4 ratio and the background image set as background. This is where you can also utilize wildcards, including (1) data extracted from the European Learning Model - the actual wildcard to include in the <html>-tag would be {SPATHS}, and (2) up to 5 custom labels - the actual wildcard to include in the <html>-tag would be {KEYS} that you can define in the following columns.	Provide here the custom text that should appear in your credential's preview (e.g. "certified that") together between the name of the credential issuer and the holder).	Labels can be identified in the HTML code by their key attribute, e.g. diploma.msg.certifiesThat.	Provide here the custom text that should appear in your credential's preview (e.g. "whose date of birth is:"). If you would like to refer to your credential holder's date of birth in a contextualised format).	Labels can be identified in the HTML code by their key attribute, e.g. diploma.msg.birth. Provide here the custom text that should appear in your credential's preview (e.g. "certified that") together between the name of the credential issuer and the holder).

Certificate of Completion

The University of Split, NEC Croatia and
the EDC Support Team certifies that

Mile Dželalija

has attended the interactive online workshop
"Europass Digital Credentials to Future-Proof Your
Potential"

EDC – BSc and MSc in Health Sector

- **First cycle (BSc), 43 agreed to receive EDC in addition to paper Diploma and DS:**
 - BSc in Nursing, 12 graduated in July 2021 (10 agreed)
 - BSc in Midwifery, 11 graduated in July 2021 (10 agreed)
 - BSc in Physiotherapy, 10 graduated in July 2021 (7 agreed)
 - BSc in Radiologic Technology, 10 graduated in July 2021 (9 agreed)
 - BSc in Medical Laboratory Diagnostic, 8 graduated in July 2021 (7 agreed)
- **Second cycle (MSc), 16 agreed to receive EDC in addition to paper Diploma and DS:**
 - MSc in Nursing, 7 graduated in March and July 2021 (7 agreed)
 - MSc in Radiological Technology, 7 graduated in March, April and July 2021 (6 agreed)
 - MSc in Physiotherapy, 3 graduated in March 2021 (3 agreed)

Further interests

For the flexible use of EDC, well-established instruments for classifications are needed:

- **Integration of the EDC to DEQAR (database of institutions and study programmes according to the ESG)**
- **Integration to other transparency tools – ESCO, etc.**
- **Analyses of EDC potentials to be used for other missions of universities (research, third missions, etc.)**
- **Etc.**

Resources needed for the EDC

- Supporting individual/group work for preparation the implementation of the EDC, project based and supports by EU experts, guidelines, trainings, workshops
- IT tool, NexU, about 200 EUR/y
- Development of the IT applications for the automated actions, data inputs, harmonisation with the existing databases, etc.
- By time, expected financial and other benefits – for all, HEIs, graduates, employers – similar as for Boarding Passes, electronic tickets, etc.
- Employers in the IT sector – are very interested
- Students have interests to have both, paper and EDC
- Some leaders of study programmes at the UNIST are very motivated to issue EDC

Thank you for your attention

Prof. Dr. Mile Dželalića
University of Split, European University of the Seas, SEA-EU
