

TFK programme, funded projects 2024

Project title: Advancement of Resilient and Innovative Higher Education in Ukraine	
Coordinator Tampereen korkeakoulusäätiö sr Jussi Kivistö, jussi.kivisto@tuni.fi	The project aims to develop a 2-ECTS study module ‘Higher Education Policy and Management in Emergencies’ for Master and PhD level students and implement it at the Institute of Higher Education of the National Academy of Educational Sciences of Ukraine (IHED) (Kyiv, Ukraine) and Taras Shevchenko National University of Kyiv (TSNUK) (Kyiv, Ukraine). The module implementation will take place in a hybrid format: with an on-site course delivery at Tampere University (TAU) (Tampere, Finland) realised through a short-term incoming student and staff mobility from Ukraine to Finland, and an online course component administered by Ukrainian partner higher education institutions (HEIs) for a wider outreach in Ukrainian higher education community. The project implementation is structured around the following activities: • Activity 1. Joint curriculum development of the study module by TAU (Higher Education Group, HEG), IHED and TSNUK (Faculty of Psychology, Educational and Scientific Institute of Philology, Faculty of Geography, Faculty of Mechanics and Mathematics, Educational and Scientific Institute of Public Administration and Civil Service). • Activity 2. Revision of 2 PhD programmes at IHED as well as 5 PhD and 11 Master programmes at TSNUK, in the fields of teacher training and education science, social and behavioural science, and business and administration, aimed at integration of the developed study module as their mandatory or elective component. • Activity 3. Joint delivery of the study module by TAU, IHED and TSNUK during two academic years of 2024/2025 (spring semester 2025) and 2025/2026 (spring semester 2026) in a form of a short-term 8-day physical mobility for 18 students and 5 staff from Ukraine to Finland and virtual mobility for 312 students and 34 staff at Ukrainian HEIs. The project will contribute to strengthening academic cooperation in the field of higher education management between Ukraine and Finland, develop capacities of Ukrainian partner HEIs in preparing a new generation of higher education leaders for recovery and reconstruction of the higher education sector of Ukraine, and deepen knowledge of the Finnish higher education community for partaking in rebuilding projects in Ukraine.
