

TFK programme, funded projects 2026

Project title: Biological and Social Interactions in Agroecology and Restoration	
Coordinator Oulun yliopisto Pavlo Ardanov pavlo.ardanov@oulu.fi	The project offers an innovative curriculum on interactions in agroecology and restoration across microbial, organismal, ecosystem and social scales. Blended modules unite FI and UA expertise: innovative ecological modelling for agroforestry with a UA-specific focus on shelterbelts; advancing agrobiodiversity and crop-polyculture design with hands-on practicals in Oulu and with data-analysis module; access for UA students to symbiosis and microbial ecology with lab work as well as to Anthropology of Sustainability enriched with Ukrainian post-military restoration perspective. Outputs include shared credit-bearing teaching, recorded materials, low-cost equipment for agrobiodiversity studies for Ukrainian universities, and four annual ling mobilities for UA MSc/PhD students to Oulu.
Partners Ukrainian National Forestry University (UNFU) Lviv State University of Life Safety (LSULS) Igor Sikorsky Kyiv Polytechnic Institute (KPI) Taras Shevchenko National University of Luhansk (LTSNU) University of Jyväskylä (JYU) V.N. Karazin Kharkiv National University (KKNU)	

National University of Life and Environmental Sciences of Ukraine (NUBIP) Sumy National Agrarian University (SNAU) Lviv Polytechnic National University (LPNU)
