

Diploma Supplement in Norway

Einar Meier, Director/Head, Department for Foreign
Higher Education II,
28 May 2026

The Diploma Supplement in Norway

-  Established by law (2002)
-  Issued automatically to all graduates
-  Supports recognition abroad
-  Free of charge
-  Includes transcript + system explanation

This Diploma Supplement model was developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualification (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.
