

Results of Erasmus+ participant Report of outgoing staff mobilities from Finland 2018-2019

Erasmus+ participant report examines the impact, content and motivations of the mobility as well as the general satisfaction of the participants.

These results are based on surveys filled by higher education staff who did a mobility period from Finland to programme countries in 2018-2019.

In 2018-2019, 822 teachers and 1042 other staff members took part in the survey, which is 95% of the participants.
