

Erasmus+ Participant Report of student and trainee mobilities from Finland 2018-2019

Erasmus+ participant report examines the impact, content and motivations of the mobility, as well as how satisfied participants are with their mobility.

These results are based on surveys filled by higher education students who did a study or trainee mobility from Finland to programme countries in the academic year 2018-2019.

In 2018-2019, 3984 students and 1129 trainees took part in the survey, which is 95% of the participants.
