

TFK programme, funded projects 2026

Project title: Promoting Competences and Excellence of Sino-Finnish Industrial Management and Business Students	
Coordinator Karelia ammattikorkeakoulu Oy Liisa Timonen liisa.timonen@karelia.fi	PROCESS strengthens Karelia UAS (Finland)–SSPU (China) cooperation to address bachelor students' competence needs in international business and industrial management. The project upskills teachers through joint workshops and targeted mobility, co-develops and pilots a joint 5 ECTS online module and aligned intensive courses for bachelor students, and creates company-based cases and assignments to increase working-life relevance. Students benefit through stronger practice-based skills, international teamwork experience and improved employability in globally operating organisations. Virtual teamwork delivers internationalisation at home for non-mobile students. Results are embedded in both HEIs' curricula and sustained via a Sino–Finnish Community of Practice for continued peer learning.
Partners Shanghai Polytechnic University
