

TFK programme, funded projects 2026

Project title: Shared Resilience: A Trauma-Informed Partnership for Well-Being	
Coordinator Turun ammattikorkeakoulu Oy Hanna Kirjavainen hanna.kirjavainen@turkuamk.fi	SHARE addresses the need for trauma-informed competencies in work with young adults. It responds to growing mental health challenges in Finland and Ukraine by developing a trauma-informed study module. Through co-creation and curriculum integration, the project equips students, HEI teachers and support professionals with practical skills to recognize trauma, provide appropriate support, and foster inclusive learning environments. Activities include joint needs analysis, development and piloting of a 5 ECTS study module, and short-term staff and student mobility. The anticipated results are an embedded study module in both participating HEIs, training and guidance materials, strengthened competencies, and a transferable model that promotes well-being, resilience and inclusive practices.
Partners Lviv Polytechnic National University
