

TFK programme, funded projects 2026

Project title: Sustainable Development, Resilience, and Inclusivity Alliance: Forging Resilient Academic Partnerships with Ukraine	
Coordinator Haaga-Helia ammattikorkeakoulu Oy Riina Iloranta riina.iloranta@haaga-helia.fi	The project strengthens institutional capacity, education, and international cooperation. It supports curriculum development in areas of sustainability, resilience, and inclusion in SUTE hospitality and food technology curricula through the development of a study module, modernisation of teaching content, and blended learning solutions. Three long-term student exchanges and short-term staff and student mobilities encourage reciprocal learning, competence development, and collaborations. The LivingLab Sustainable & Healthy Lunch student contest integrates education, research, and social impact. Results include a shared study module, digital learning materials, and an updated curriculum, supporting Ukraine's integration to the European Higher Education Area and post-war rehabilitation.
Partners State University of Trade and Economics
