

1.

Right to play and rest

"Listen, come here and tell me, do
About children's rights important for you.
Well, singing and playing are some of the best
And when you are tired, having a rest."

(Hand to the ear)
(Point at the children)
(Clap hands)
(Hands on one ear, tilting
the head)

2.

Right to safe relationships

"Listen, come here and tell me, do,
Which are the rights that belong to you.
Family and friends do happy as make.
And any type of bullying is a bad mistake!
Children have the right to care and love,
A safe place to go when things get tough."

Right to participate

"To participate, what an earth does it mean?

It's the magic of seeing we're not all the same.
We have a great group of which you're a part
Why not come and join us, just as you are?

Even when you are silent, I can still hear
And without even asking, the answer is here.

Whatever is important for you, you can say.
And together we make it a great new day."

"Children have the right to learn more
Dig and plant seeds and go and explore
To paint and dance and run and draw
And soon be knocking on the school's door."
