Education at a Glance

Published annually by OECD. Offers information on the state of education around the world by providing data on the structure, finances and performance of education systems in OECD and partner countries.

Education at a Glance 2018:

- Link to the publication: <http://www.oecd.org/education/education-at-a-glance/>
- Over 100 charts and tables.
- Focus on **equity in education**:
 - how progress through education and the associated learning and labour market outcomes are impacted by dimensions such as gender, the educational attainment of parents, immigrant background, and regional location
 - a chapter dedicated to Target 4.5 of Sustainable Development Goal 4 on equity in education, providing an assessment of where OECD and partner countries stand in providing equal access to quality education at all levels
 - new indicators on equity in entry to and graduation from tertiary education, and the levels of decision-making in education systems
